## JBI COneCT

### Background & coverage

JBI COneCT (Clinical Online Network of Evidence for Care and Therapeutics) integrates resources and tools to assist health care workers make evidence-based informed clinical decisions about the care and treatment of their patients/residents/clients. Specialty ‘nodes’ include acute care, burns care, infection control, midwifery, and others. Each node contains resources and evidence specific to that area of health.

### Search Tips and Tools:

<table>
<thead>
<tr>
<th>Document types:</th>
<th>Boolean Searching, Truncation &amp; Wildcards</th>
<th>Embed (Tools menu)</th>
<th>Limits &amp; filters (Advanced Search)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Search for to following appraised evidence:</td>
<td>AND is assumed between words unless another operator is used</td>
<td>Browse to clinical practice manuals on:</td>
<td>Specialties: applies to Evidence Based Recommended Practice documents only</td>
</tr>
<tr>
<td><strong>Best Practice Information Sheets</strong></td>
<td>Use Boolean operators AND, OR, NOT when searching</td>
<td>• Acute Care</td>
<td><strong>Nodes:</strong></td>
</tr>
<tr>
<td>Short summaries based on the results and recommendations of systematic reviews. Easily disseminated.</td>
<td>Use quotation marks when phrase searching, e.g. “pressure ulcer”</td>
<td>• Aged Care</td>
<td>• Acute Care</td>
</tr>
<tr>
<td><strong>Evidence Summaries</strong></td>
<td>Use the * wildcard for truncation e.g. neuro* will find neurology, neurological, etc.</td>
<td>• Chemotherapy</td>
<td>• Aged Care</td>
</tr>
<tr>
<td>Short abstracts summarizing existing international evidence on common health care interventions and activities.</td>
<td>Search terms are automatically expanded to find singular/plural/gender forms</td>
<td>• Infection Control</td>
<td>• Burns Care</td>
</tr>
<tr>

</tbody>
</table>

**Boolean Searching, Truncation & Wildcards**

- AND is assumed between words unless another operator is used.
- Use Boolean operators AND, OR, NOT when searching.
- Use quotation marks when phrase searching, e.g. “pressure ulcer”.
- Use the * wildcard for truncation e.g. neuro* will find neurology, neurological, etc.
- Search terms are automatically expanded to find singular/plural/gender forms.

**Embed (Tools menu)**

- Browse to clinical practice manuals on:
  - Acute Care
  - Aged Care
  - Chemotherapy
  - Infection Control
  - Midwifery
  - Physiotherapy
  - Rural Practice

**Limits & filters (Advanced Search)**

- **Specialties:** applies to Evidence Based Recommended Practice documents only
- **Nodes:**
  - Acute Care
  - Aged Care
  - Burns Care
  - Diagnostic Imaging
  - Infection Control
  - Mental Health
  - Midwifery Care
  - Rehabilitation
  - Wound Healing and Management

**External Sources:** Search a variety of external evidence-based practice resources as well as JBI Connect.

**MeSH searching:** all documents in JBI Connect have been linked to corresponding MeSH concepts. Search or browse to find MeSH terms.
